

Are You a Patriot?

Do You Believe Any of This Information?

The IBPF is a statewide organization interested in the promotion of safe shooting, rendezvous, and sharing in the history that is ours to remember and pass on to others. Most of our members are located in Iowa, however we have many members who live outside of the state. We believe in safety, family, friends, and the great outdoors.

"A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms shall not be infringed."

Second Amendment to the U.S. Constitution

What does it mean to you to be or become a member of the IBPF, the NMLRA or the NRA? Have you stopped to ask yourself these questions and do you care as we are being attack from all sides of our current culture these days. We are the current generations of gun owners that are the law abiding citizens that currently are questioned by a few very loud persons that have little interest in our freedoms, rights or privileges under the Constitution of the United States of America. What better way to enact our freedoms than by joining, supporting and help in organization of the authorities given as members under these organizations to clearly define our Constitutional Rights by participating in the greatest attacks that we have faced. Why join? Why stay in touch with our own needs to support our rights as gun owners, sports men and women of all degrees and disciplines??

We have a Mission Statement:

We exist to promote, support, nurture, and preserve our nation's rich historical heritage in the sport of muzzle loading through recreational, educational, historical, and cultural venues such as match competition, hunting, gun making and safety, historical re-enactments, exhibits, museums, libraries, and other related programs

We have a Code of Ethics:

We live to maintain this code by following the laws, regulations and mandates set forth so that our Constitutional Rights are preserved. What is more than that? What must we do to stay alive in today's culture? It is painfully clear. We must not ignore the world around us and say that we are safe from the world around us, because as you can see, we are not. We must be, more than ever, a greater part of the whole and be involved by staying in touch and belonging.

This is our future to stay in the mix, stay involved in this world we live in, because now more than ever, we are not just part of the United States of America we are part of a truly world wide cultural system.

Continue your memberships, become members, get someone else interested and follow your heart as true Patriot and keep our county alive by believing in the Second Amendment of this great County of ours.
