

## Iowa Black Powder Federation Newsletter for June 2019

This month there is the June shoot at Friendship. If you haven't been there you should go. There are pistol shoots, rifle matches both offhand and bench, Primitive and modern, Chunk matches, shotgun matches, silhouette cartridge and round ball, and not the least slug matches. The cafeteria will be open, for quick food there is a food cart on the bench line and over on the primitive side a tent with good stuff to eat.

Vendors will be on trader's row Saturday thru about Tuesday. You can touch and examine locks, barrels, wood and everything else used in Muzzle loading. There is an open house on trader's row on either Monday or Tuesday evening. I can't remember which. Snacks and drinks are provided.

In the education building there is going to be an exhibit of Hawken rifles on the first Saturday and Sunday of the match. At Gun Makers Hall craftsman will be working. Don't forget to walk down the line and see what the shooters are selling. Sometime you can find what you want at a good price.

The end of June after the National Shoot the Miami Black powder Club will be holding their monthly BPCR knock down Silhouette Shoot. It is preceded by a 22 Silhouette shoot on Friday. Check the NMLRA website for exact dates and times. Preregistration is not required for these events.

The IBPF will be holding their yearly shoots in August. We have three shoots, check the events page. September is the shotgun shoot. We shoot both black powder cartridge and Muzzleloader shotguns at this shoot.

Summer is here and shooting and fellowship is all around, get out and enjoy before winter comes.
